SUPREME CABLE

Company Background

Specializing in the cable business for over 53 years, PT SUPREME CABLE MANUFACTURING & COMMERCE Tbk or abbreviated as PT SUCACO Tbk has grown steadily to become one of Indonesia's largest and leading cable manufacturers.

Today, PT SUCACO Tbk has grown to become a reliable partner in the cable industry. In addition, the Company is also a respected corporation with a healthy financial position that makes contribution in building national infrastructures with it's international reputation.

The Company is also involved through it's affiliated companies, in various line of business. The company has a Quality Assurance Program and ISO certificate from SGS international certification body, of ISO 9001 for quality management system, UKAS 0005 for Management System, ISO 14001 for environment management system, and ISO 45001 for occupational health and safety management system.

NYAF 450/750 Volt

SNI 04-6629.3/ SPLN 42-3/ IEC 60227-3

SINGLE CORE, FLEXIBLE COPPER CONDUCTOR AND PVC INSULATED CABLE

- Applications** :
1. Fixed internal wiring with low mechanical stress for electrical equipment, machineries, distribution panels, luminaires and other electrical appliances used in dry indoor premises, substitutes NYA
 2. Permanent installation in conduit, inherently flame retardant in compliance with IEC 60332-1

NYMHY 300/500 Volt

SNI 04-6629.5/SPLN 42-6-2/IEC 60227-5

FLEXIBLE COPPER CONDUCTOR, PVC INSULATED AND PVC SHEATHED CABLE

- Applications** :
1. Power cord or internal wiring with low mechanical stress for electrical equipments, machineries, luminaires and other portable appliances used in dry indoor premises.
 2. Permanent exposed wiring in humid environment, installation in tray or under plaster for industrial three phase 380 - 415 VAC or single phase 220 - 240 VAC multipurpose applications, inherently flame retardant in compliance with IEC 60332-1.

SUPREME CABLE

FLEXIBLE CABLE

NYHYH 450/750 Volt

Manufacturing Specification

FLEXIBLE COPPER CONDUCTOR, PVC INSULATED AND SHEATHED CABLE

- Applications** : 1. Power cord or internal wiring with medium mechanical stress for electrical equipments, machineries, luminaires and other portable appliances used in dry indoor premises
2. Permanent exposed wiring in humid environment, installation in tray or under plaster for industrial three phase 380-415 VAC or single phase 220 - 240 VAC multipurpose applications, inherently flame retardant in compliance with IEC 60332-1.

Cu/PVC/TCWB/PVC (LiYCY) 300/500 Volt

Manufacturing Spec. / IEC 60227.7

FLEXIBLE COPPER CONDUCTOR, PVC INSULATED, BRAIDED WITH TINNED COPPER WIRE BRAIDED SHIELDED AND PVC SHEATHED CABLE

Applications : Power cord or internal wiring with low mechanical stress for electrical equipment, machines, luminaires and other portable appliances used in dry indoor premises. Signal and control cables used for connection in electronic control technology, data transmission for voice frequency. Process control and instrumentation, The screening protects the cable against external electrical interference (EMI Protection)
